

Muhammad Afzaal Muzaffaruddin

mhmdafz78@gmail.com | <https://muhammadafzaal.com> | <https://github.com/afzzrdn>

I'm an Informatics Engineering student who is interested in Full-Stack Web Development, and has experience in creating web projects such as AI-based websites, personal blogs, web3, and management systems. Discipline, and able to manage time well. Able to work in a team and adapt to any situation, also has the ability to learn quickly.

Work Experience

Front End Developer — IT Team PORSENASMA V PT PGRI

Dec 2024 - Present | PGRI Madiun University

- Creating the entire appearance of the website and fetching data from the backend, as well as ensuring the website is compatible on all devices
- Create animations with GSAP to make the website display attractive and interactive

Project Experience

Blockchain Student Attendance

<https://github.com/afzzrdn/blockchain-student-attendance> | Next.js, Solidity

- Create an attendance website with blockchain as data storage using solidity smart contracts and the ethereum network

PORSENASMA V Website

<https://porsenasma.unipma.ac.id> | Laravel, Alpine.js, GSAP

- This website aims to provide information and introduction to the PORSENASMA V event held at PGRI Madiun University.
- I implemented GSAP to create interesting animations

Personal Website

<https://muhammadafzaal.com>

- This project is for my personal website, which contains about, project and certification

Education

PGRI Madiun University

Informatics Engineering – 2022 - Present | GPA 3.76 / 4.00

- I have taken programming algorithm courses, Object Oriented Programming (OOP), Web Programming, and Database. I have also participated in student exchange activities at Sriwijaya University.

Organizational Experience

Head of Web Division – Department of Informatics UNIPMA

Jan 2024 - Dec 2024

- Held the first DEPTICS Mini-Bootcamp event with fundamental React and Laravel material, attended by Informatics Engineering Students from PGRI Madiun University.
- Hold coding lessons together regularly every week

Technical Skill

- Frontend : HTML, CSS, Javascript, React, Vue, GSAP, Tailwind, Bootstrap
- Backend : PHP, Rust, Laravel, Express
- Rendering : Next.js
- Database : MySQL, Postgre, Firebase, MongoDB
- Tools : VS Code, Git, Figma
